

## PRODUCT INFORMATION SHEET

# Socket and Impact Bit Set 4 mm - 13 mm, 21 pcs

### Product description

The 1/4" impact bit and socket set from **Högert Technik** is designed for professional users and demanding DIY enthusiasts. It combines high resistance to impact loads, precise workmanship and wide compatibility with power tools and hand wrenches.

#### Features and Benefits:

- ■ **Shock-resistant** – the rugged design provides resistance to high torques, guaranteeing reliability in demanding applications.
- ■ **Universal use** – compatible with impact wrenches, quick-release chucks and 1/4" hexagon chucks.
- ■ **Precise fit** – precision-made bits and sockets allow for efficient torque transmission while protecting the screw heads from damage.
- ■ **High-quality materials:**
  - ■ hexagonal sockets made of **CrMo** steel – resistant to cracking and wear,
  - ■ bits made of **S2** steel – with increased hardness and durability,
  - ■ **CrV** and stainless steel bit holder – ensuring a long service life and stability of operation.
- ■ **Magnetic bit holder** – allows for quick and secure clamping, making it easier to work in hard-to-reach areas.
- ■ **Convenient storage** – all items are housed in a sturdy metal box that protects tools and keeps your workplace tidy.

#### Kit contents:

- ■ 12 × hex socket wrenches (CrMo)
- ■ 2 × 1/4" Adapter – S2 Steel
- ■ 6 × bits steel S2 (PH2, PZ2, T15, T20, T25, T30)
- ■ 1 × 1/4" Magnetic Bit Holder – CrV + Stainless Steel
- ■ 1 × Metal Box

The kit is designed for assembly, service and installation work, both in the workshop and on the construction site. It will work wherever **precision, reliability and durability** are important.

## Characteristics

- A set of 1/4" bits and impact sockets designed for professionals and demanding DIYers.
- Suitable for impact work – reinforced construction resistant to high torques.
- Universal use – compatible with impact wrenches, quick-release chucks and 1/4" hexagon wrenches.
- Precision-made bits and sockets – the precise fit protects the screw heads from damage.
- CrMo steel hexagonal sockets – high resistance to cracking and abrasion.
- Bits made of S2 steel – increased hardness and durability.
- Magnetic bit holder made of CrV and stainless steel – secure attachment and comfortable operation.
- Sturdy metal box – safe storage and order in the workplace.
- The set is ideal for assembly, service and installation work – in the workshop and on the construction site.
