

PRODUCT INFORMATION SHEET

Delta 18V grinder

Product description

A powerful and compact oscillating device, designed for machining and finishing surfaces, especially in corners and hard-to-reach places. Ideal for sanding wood, metal, plaster and plastics. It will work well during renovations, carpentry studios and mechanical workshops.

Key features:

140×140×80 mm working foot with a large abrasive surface and high oscillation speed ensure fast and effective sanding,

Velcro fastening allows for instant sandpaper replacement,

the possibility of connecting a dust bag or vacuum cleaner reduces dust in the workplace,

ergonomic anti-vibration handle increases comfort and control of the device,

delta shape allows for precise sanding of corners, edges and irregular surfaces,

low weight makes it easier to work, even with prolonged overhead sanding,

Dust protection protects the motor from dust particles and extends the life of the device.

Technology and Performance:

Advanced electronics optimize engine power, increasing efficiency and battery life

Warranty:

3 years of protection with Door to Door service – less downtime and peace of mind.

Characteristics

- Foot size: 140x140x80 mm.
- Oscillation speed: 0–12,000 RPM.
- Dust bag and vacuum cleaner adapter included.
- Battery sold separately.
- 3 years warranty after registration.
