

18V Brushless Straight Grinder

Product description

The Högert HT2E280-DG brushless straight grinder is a precise, cordless tool designed for grinding, polishing and machining workpieces in metal, wood and plastics. It is ideal for the workshop, during renovation, carpentry and locksmith work, as well as in the automotive industry – for the renovation and polishing of body parts.

Adjustable speed from 3500 to 10000 rpm allows full control over the machining process and adaptation of the work to the type of material. The Blau Power brushless motor provides high power, longer runtime and longer durability compared to traditional solutions.

The LED light improves the visibility of the work area, and the ergonomic, compact design guarantees comfortable work even in hard-to-reach areas.

Compatible with **OneAccuSystem 18V**, the product ensures full mobility, compatibility with other Högert power tools and no cord restrictions.

Characteristics

- Speed range: 3500-10000 rpm (adjustable).
- Shank diameter: 6 mm.
- Spindle lock for quick accessory changes.
- LED lighting of the work area.
- Ergonomic, non-slip handle.
- Low vibration level – 5.34 m/s².
- Sound pressure level: 85.3 dB(A).
- Sound power level: 93.4 dB(A).
- Thermal protection of the motor.
- Battery sold separately.
- Power supply: OneAccuSystem 18V.
- 3 years warranty after registration.
