

## PRODUCT INFORMATION SHEET

# Brushless Angle Grinder With Speed Adjustable 125mm 18V

### Product description

An efficient and safe tool for cutting and grinding metal, smoothing welds and removing rust. Ideal for work on construction sites, in car services and locksmith workshops.

#### Key features:

electronic speed control allows you to adjust the rotation to the type of material and have full control over the work,

125 mm blade and 10,000 RPM speed for fast cutting and efficient grinding,

**KickBackStop** function protects against kickback – in the event of a jerk, the motor stops immediately,

quick installation of the blade without the use of tools thanks to **the QUICKTECH** nut,

two tool-free protective covers – position-adjustable for added safety

side anti-vibration handle, with the possibility of mounting in two positions.

#### Technology and durability:

brushless motor – more power, longer runtime and durability,

filters protect the engine from dust and metal particles, preventing seizure,

advanced electronics optimize engine power and extend battery life,

the metal gear housing effectively dissipates heat, increasing durability,

wear-resistant metal gearbox,

The ability to stand the tool upright with the battery makes it easy to store.

### System Advantages:

OneAccuSystem 18V power supply – mobility and full compatibility with a wide range of system power tools.

### Warranty:

3 years with Door to Door service – less downtime, more reliability.

### Characteristics

- **KickBackStop** function.
- Tool-free installation and adjustment of **QUICKTECH** disc guards.
- Maximum blade diameter – 125 mm.
- Speed control - 3500/5000/6500/8000/9000/10,000.
- Maximum rotational speed – 10,000 RPM.
- Guard for cutting and grinding.
- Infinitely adjustable position of the covers.
- Metal housing and gear mechanism.
- M14 mount.
- Weight – 1.5 kg.
- Battery to be purchased separately.
- 3 years warranty, subject to device registration.
