

Hedge trimmer 18V

Product description

The **Högert Technik HT2E292-0HT** cordless hedge trimmer is designed for the convenient and precise care of hedges and shrubs in home gardens. The 18V battery power provides full mobility and cordless freedom for easy manoeuvring around plants and working in larger gardens.

The **long 56 cm** long cutter bar allows you to efficiently cut larger areas of the hedge, reducing working time. The shears can handle branches up to **1.9 cm** in diameter, making them suitable for both regular pruning and correcting more overgrown shrubs.

An important element of the design is **the swivel handle**, which can be adjusted at an angle of **45° or 90° to the left and right**. This solution increases control over the tool and allows you to maintain a natural wrist position when cutting the sides and upper parts of the hedge. Two safety switches prevent accidental start-up of the device, increasing the level of user protection.

System advantages

The OneAccuSystem 18V power supply allows it to work with other Högert cordless tools, reducing the number of batteries needed and increasing the flexibility of working in the garden.

Battery and charger available for purchase separately.

Warranty

3-year warranty with Door to Door service – safe use and fast service when needed.

Characteristics

- **Swivel handle** (45° / 90° left to right) – better ergonomics and control.
- Cutter
 - bar length **56 cm** – efficient cutting of large areas.
 - Maximum cutting diameter of **1.9 cm** – more versatility.
 - Two safety switches – protection against accidental starting.
 - low vibration and noise levels – greater comfort of work.
