

Pressure washer 165 bar with pressure regulation

Opis Produktu

The Högert HT2E418 pressure washer is an efficient and versatile device designed to effectively remove dirt from various surfaces. Thanks to the pressure regulation and the ability to work with detergent, it is perfect for both domestic and semi-professional applications – from washing cars to cleaning terraces or facades.

The device offers a maximum pressure of **up to 165 bar** and a water flow of **6 l/min**, which allows for quick and effective removal of even stubborn dirt. The adjustable nozzle allows you to adjust the spray from wide fan to spot, which increases cleaning precision and safety with more delicate surfaces.

The integrated detergent tank makes it easy to apply cleaning agents, and the ergonomic design with handle and transport wheels ensures comfort of use and mobility. In addition, the overload protection system protects the device from damage, extending its lifespan.

The washer is designed to work with cold water (up to 40°C), which makes it an ideal solution for everyday cleaning work around the house, in the garden or workshop.

Key benefits

- maximum pressure of 165 bar – effective removal of stubborn dirt;
- pressure and jet regulation – adaptation to different surfaces;
- 6 l/min capacity – fast and efficient cleaning;
- built-in detergent tank – easier removal of difficult dirt;
- adjustable nozzle – from point jet to wide range;
- ergonomic design with wheels – convenient transport and storage;
- Overload protection system – longer durability of the device.

Application

The Högert HT2E418 washer will work well for:

- washing cars, motorcycles and garden equipment;
- cleaning of paving stones, terraces and driveways;
- care of façades and fences;
- cleaning work in the garage and workshop.

Technical Parameters

- Power: 2200 W
- Working pressure: 110 bar
- Maximum pressure: 165 bar
- Water flow: 6.0 l/min
- max. water temperature: 40°C
- Power supply: 230 V / 50 Hz

It is a solid choice for people who expect **powerful, mobile and versatile cleaning equipment**, ensuring high efficiency and comfort of work.

Charakterystyka

- maximum pressure of 165 bar – effective removal of stubborn dirt;
- pressure and jet regulation – adaptation to different surfaces;
- 6 l/min capacity – fast and efficient cleaning;
- adjustable nozzle – the ability to change the spray from wide to point;
- built-in detergent tank – easier removal of difficult dirt;
- power 2200 W – high work efficiency;
- ergonomic design with handle and wheels – convenient transport and use;
- Overload protection system – protection of the device and longer life.
