

PRODUCT INFORMATION SHEET

Extension hose for washers 5 m

Product description

The Högert high-pressure hose is a practical 5-metre extension designed to extend the operating range of pressure washers. It allows for more convenient cleaning of larger surfaces without the need to move the device frequently, which significantly improves comfort and work efficiency. Thanks to its robust design, the hose is resistant to high pressure and daily use, ensuring reliable operation when washing vehicles, terraces, facades or garden equipment. The extension is fully compatible with Högert HT2E400, HT2E401 and HT2E418 washers, which guarantees quick installation and trouble-free use.

Characteristics

- length 5 m – extended working range without the need to move the washer;
- Compatible with HT2E400, HT2E401 and HT2E418 models;
- resistance to high pressure – safe and durable operation;
- robust construction – adapted to intensive use;
- Easy installation – quick connection to the device.
